

## **KAUNO RAJONO SAVIVALDYBĖS MERAS**

### **POTVARKIS**

**DĖL KAUNO RAJONO SAVIVALDYBĖS TARYBOS 2007-05-03 SPRENDIMU NR. TS-38  
PATVIRTINTO ŽEMĖS SKLYPO KAUNO R. SAV., GARLIAVOS APYLINKIŲ SEN.,  
TVARKIŠKIŲ K., KADASTRO NR. 5227/0001:51, DETALIOJO PLANO KOREGAVIMO  
ŽEMĖS SKLYPE KAUNO R. SAV., GARLIAVOS APYLINKIŲ SEN., TVARKIŠKIŲ K.,  
PURIENŲ G. 7, KADASTRO NR. 5227/0001:442, PAGAL LIETUVOS RESPUBLIKOS  
TERITORIJŲ PLANAVIMO ĮSTATYMO 28 STRAIPSNIO  
9 DALĮ PATVIRTINIMO**

2025 m. birželio d. Nr. MP-  
Kaunas

Vadovaudamasis Lietuvos Respublikos vietos savivaldos įstatymo 25 straipsnio 5 dalimi, 27 straipsnio 2 dalies 12 punktu, Lietuvos Respublikos teritorijų planavimo įstatymo 28 straipsnio 9 dalimi, Kompleksinio teritorijų planavimo dokumentų rengimo taisyklių, patvirtintų Lietuvos Respublikos aplinkos ministro 2014-01-02 įsakymu Nr. D1-8 „Dėl Kompleksinio teritorijų planavimo dokumentų rengimo taisyklių patvirtinimo“ 318.3.6 papunkčiu ir atsižvelgdamas į planavimo iniciatoriaus 2025-05-29 prašymą Nr. REG36111793 ir Teritorijų planavimo komisijos 2025-06-12 derinimo išvadą Nr. REG36787600:

1. Tvirtinu Kauno rajono savivaldybės tarybos 2007-05-03 sprendimu Nr. TS-38 patvirtinto žemės sklypo Kauno r. sav., Garliavos apylinkių sen., Tvarkiškių k., kadastro Nr. 5227/0001:51, detaliojo plano koregavimo žemės sklype Kauno r. sav., Garliavos apylinkių sen., Tvarkiškių k., Purienų g. 7, kadastro Nr. 5227/0001:442, pagal Lietuvos Respublikos teritorijų planavimo įstatymo 28 straipsnio 9 dalį, koreguojant planuojamos teritorijos aprūpinimo inžineriniais tinklais būdus ir susisiekimo komunikacijų išdėstymo principus, joms funkcionuoti reikalingų servitutų poreikį pagal pridedamą brėžinį.

2. N u s t a t a u , kad šis potvarkis ir juo patvirtintas 1 punkte įvardytas teritorijų planavimo dokumentas įsigalioja kitą dieną po jo įregistravimo ir paskelbimo Lietuvos Respublikos teritorijų planavimo dokumentų registre.

3. N u r o d a u Urbanistikos skyriaus vedėjui užtikrinti šio potvarkio ir juo patvirtinto 1 punkte įvardyto teritorijų planavimo dokumento viešinimą Lietuvos Respublikos teritorijų planavimo įstatymo 27 straipsnio 6 dalyje nustatyta tvarka.

Šis potvarkis gali būti skundžiamas savo pasirinkimu Lietuvos administracinių ginčų komisijos Kauno apygardos skyriui (Laisvės al. 36, LT-44240 Kaunas) Lietuvos Respublikos ikiteisminio administracinių ginčų nagrinėjimo tvarkos įstatymo nustatyta tvarka arba Regionų administracinio teismo Kauno rūmams (A. Mickevičiaus g. 8A, LT-44312 Kaunas) Lietuvos

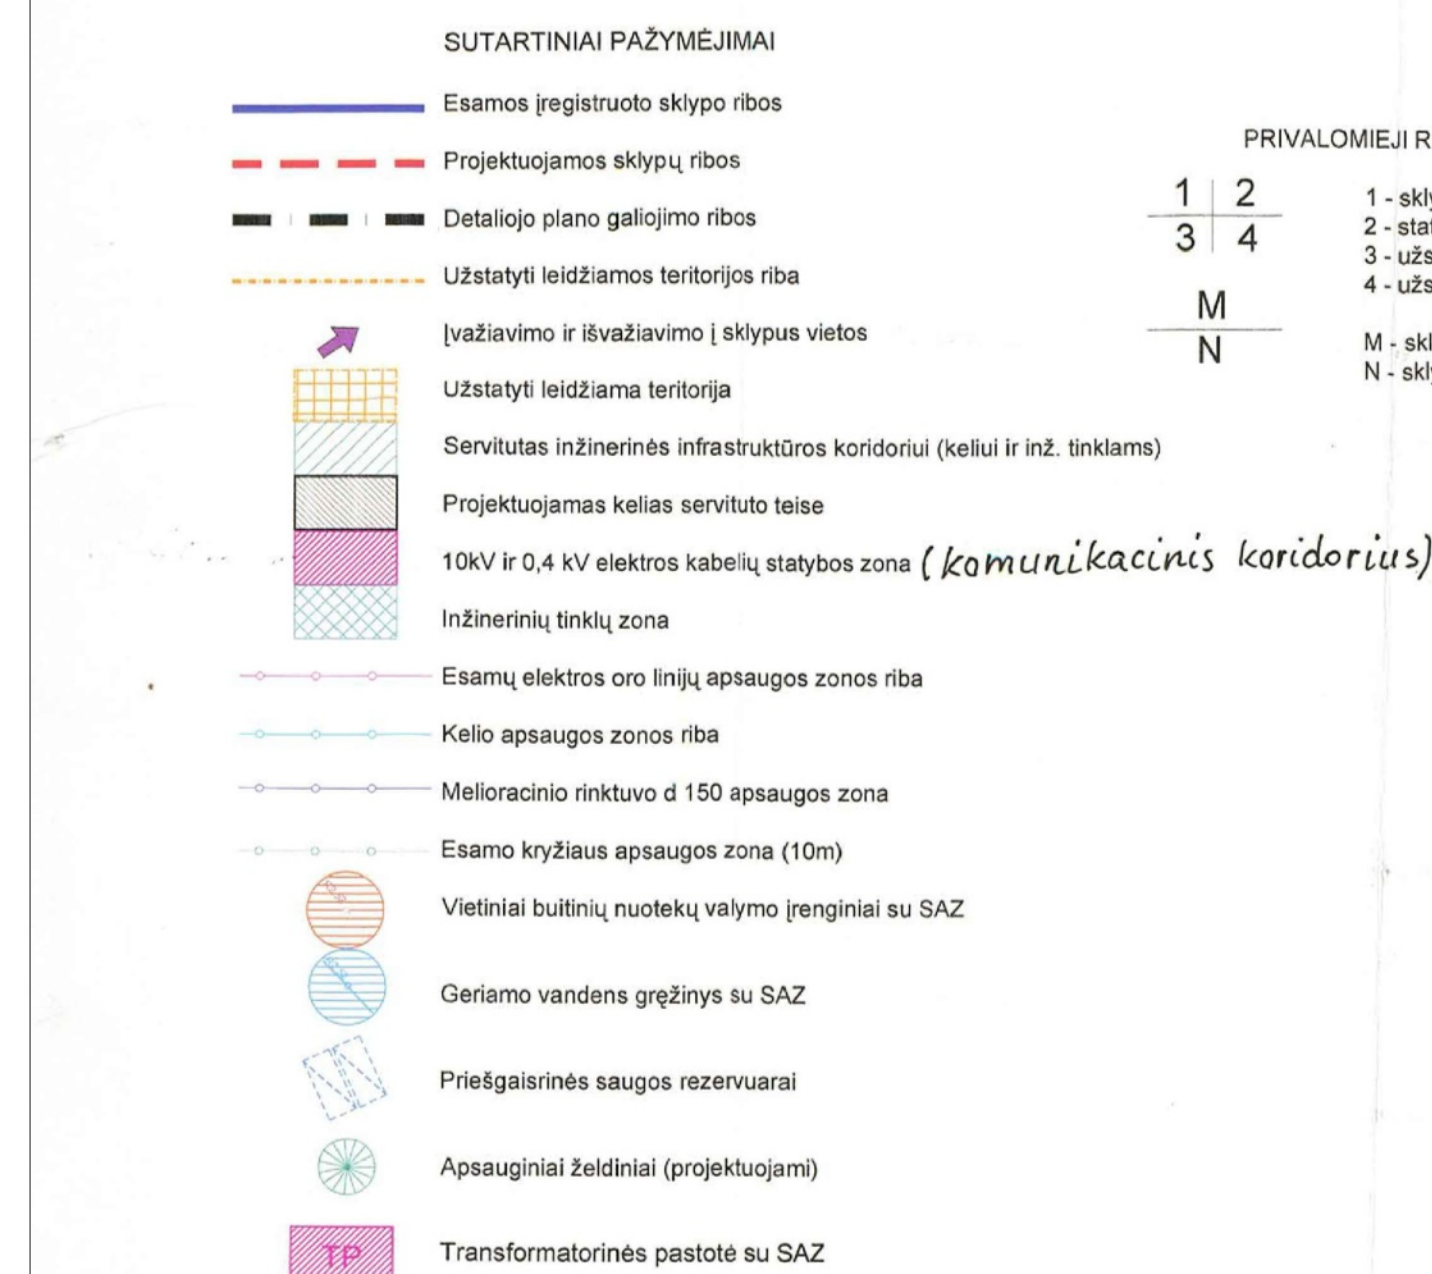

Respublikos administracinių bylų teisenos įstatymo nustatyta tvarka per vieną mėnesį nuo jo paskelbimo arba įteikimo suinteresuotam asmeniui dienos.

Savivaldybės meras

Valerijus Makūnas

                                           |                                              |                      |         |         |                  |                      |                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                      |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Pastabų<br>aprašymas |
